

Synopsis One

Smarter Time Management, Secure Access

SuperVision
Platinum

Empower your workforce. Protect your business.

SuperVision Platinum Cloud Solution

Synopsis One has owned and internally developed **SuperVision Platinum** – an advanced **Time & Attendance and Access Control system**, since 2006.

With **fingerprint and facial biometrics**, SuperVision eliminates outdated pin codes and access cards. The solution reduces fraud, prevents buddy-clocking, and replaces paper-based processes with seamless automation.

All-in-One HR & IT Solution:

- Time & Attendance
- Access Control
- Payroll Integration
- Fraud Prevention

Unique Feature: Zoning technology ensures employees cannot leave premises without clocking out.

Time & Attendance Management

- Biometric clocking (fingerprint & facial recognition)
- Track attendance, absenteeism, and AWOLs
- Automated reporting (emailed directly to management)
- Exception alerts: late arrivals, early departures
- Integration with leading payroll systems (via files or APIs)
- Advanced shift features: rules, sensing, work patterns

Access Control Management

- Integrates with turnstiles, maglocks, no-touch buttons
- Zone-based employee access management
- Group permissions for secure, accurate access control
- Ensures safety and reliable clockings

Why SuperVision

- Cloud-based with robust MS SQL database
- Instant savings on admin time & overtime bills
- Continuous software improvements
- In-house development capability
- Comprehensive manuals & training videos
- Tailored BA sessions to fit your business needs
- Wifi, SIM, 4G communication capability
- WhatsApp integration
